

Crossing Borders in Martial Arts Development

ECCS - Pre-Congress Satellite

Vienna Austria Center - July 6, 2016 / 9:00-12:00

Cooperation between Research Institutions and Companies to improve fighting sports.
Sponsored by sport-oesterreich.at

9:00 - 10:00 Sports ID

Sports-ID offers a comprehensive and highly flexible membership, ID card and event management solution for sports federations. Special usage in Martial Arts: Medical data and injury tracking in order to be able to block fighters to do registrations to other events for a certain period in order to protect them.

11:00 - 12:00 Mobile Motion Advisor

The Mobile Motion Advisor (MMA) is a web based platform for activity monitoring and giving feedback via smartphone app directly to the athlete. The system was set up together with and is used in school classes. Moreover, it is suitable for high level athletic endurance training, for example in High Intensity Interval Training in Kickboxing.
